*To apply for State Aid \$2,950.24 must be raised for elementary schools.

Note:

For several reasons, the School Board is obliged to ask for a deficiency appropriation. During the past two years, a balance expected at the end of the year has been reported to you in the budget. This expected balance was reported in different sums, both of which reduced the amount raised by district tax for those years. When the books were closed for the year this balance was found to be non-existent owing to added expenses for repairs, employment of normal trained teachers, and increased high school tuition costs. All bills were paid however from the reserve until last year when it was necessary to ask the selectmen for an advance from the appropriations of 1929-30. This so reduced the money available that the \$2,950.24 necessary to raise to qualify for State Aid was not raised. \$508 of the total amount asked is accounted thus. The remainder is in two sums: \$245 for extra high school tuition in 1928-29 and \$430.54 for extra high school tuition for the present year. These last two items are statutory obligations and must be

paid. The first is necessary to insure payment of State Aid next December. With this money available immediately, we can balance our budget for this year.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Brentwood :

I herewith submit my first annual report as superintendent of schools. I do so with some misgivings, knowing full well your long and happy experience with my esteemed predecessor. I hope our relations may be as cordial and our progress as marked as has been your fortune in the past decade.

My report will deal briefly with the seven tables which follow.

I congratulate you in the accomplishment of your aim to employ only teachers trained in normal schools. It is a wise decision, for better training means better teaching. Only one of your last year's staff remained to take up the work this year. This would indeed lead to a recommendation that you study the problem of salaries and other important details in the retention of desirable teachers and the determination of a definite policy in that direction. Changing teachers most certainly must interrupt the continuity of learning for some children. You should approach this problem not from a financial viewpoint but from the greatest possible educational good. Strong teachers make strong schools. Each added year of experience tends to increase this strength.

Table II gives the calendar for this school year. We hope it may answer questions which may arise as to vacations and other matters of similar interest.

Table III shows the pupils who had perfect attendance throughout the past school year. This is

a list which I hope may grow during the present year. The parent's name is included as well as that of the child because the incentive for such good attendance often rests with the parent.

The next two tables give the eighth grade graduates and those in high school. It is worthy of your attention that a large percent of your graduates are going on to school and are doing satisfactory work in almost every case.

Table VI contains the names of the pupils who may enter school next September. There are probably others who will have reached the age named by that time. Beginners should enter school during the first three weeks at the beginning of the school year or wait until the following Fall.

Table VII speaks for itself. It shows the findings of your physician, Dr. A. W. Mitchell. "A sound mind in a sound body" is a splendid aim toward which we should strive. A large number of the defects noted have been corrected since the last report. This is gratifying to a new comer to your schools.

The last table presents a summarized report of the registers kept for each school. The loss by absence is considerable. We hope for the co-operation of parents in reducing this loss to a minimum. Splendid results have been attained this year in eliminating tardiness. Our goal is the State average of 1.1 cases per pupil. Last year's figures show 2.7 cases per pupil. We believe it is poor civic training to allow a child to be late for school. Will every parent share this belief and help to remedy this evil? These facts as well as others you will find, as you examine the attendance statistics.

I appreciate your loyal interest and helpful advice in the management of the schools. I am sure

it bespeaks the continued progress of your children. It is my earnest desire to promote good schools and offer as many advantages to the pupils as time, labor, and money will permit.

Respectfully submitted,

HAROLD C. BOWLEY,
Superintendent of Schools.
